Caigua Artesenias

Pulsando sobre "Mi Historia" podran navegar hacia una entrevista que me hicieron hace unos años por si me quieren conocer un poco mas

MI HISTORIA

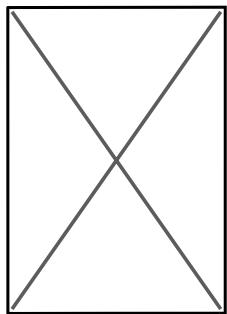

Con que trabajo ? (Lagenaria)
Lagenaria es un género de plantas trepadoras perteneciente a la familia de las cucurbitáceas. Incluye especies, que son perennes y originarias de África tropical. La única especie anual, Lagenaria siceraria, ha sido cultivada durante milenios en regiones tropicales de África y América debido a sus frutos
